

## HALO Size/Length

### HOW TO MEASURE

#### SIZING CHART

S/M	19" - 22"
L/XL	22" +

#### HALO 2.0

#### STEP 1

To acquire your proper fit, it is best to use a cloth measuring tape or print out a ruler.

#### STEP 2

Loop the tape measure around your head. It should be even and smooth all the way around. Measure the greatest distance around the head, where your hairline meets your forehead. Tape measure should be at a slight angle measuring above the ears. NOTE: Keep in mind your hair style when taking your measurements to ensure best fit possible.

#### STEP 3

Read the measurement on the tape and use the chart above to convert the centimeters/inches to find your perfect fit.

See inside for easy install steps

**HALO™**  
PROTECTIVE HEADGEAR

**6mm  
& 10mm**

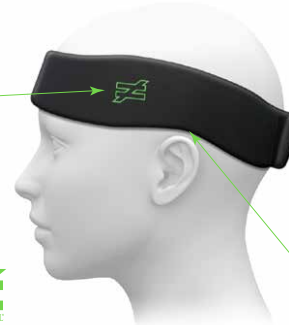

## HALO Placement

Place mesh side against the forehead

Bottom of Halo features contoured curves for ears
