"With balls flying at 90 mph and slashing sticks part of the territory, the sport of lacrosse certainly has risk. But Unequal has produced great looking chest protectors for all sports that perform at a level I haven't seen before. The HART Goalie chest protector, for instance, allows for complete range of motion, is really thin and lightweight yet offers unbeatable protection. I recommend Unequal to any athlete serious about playing at peak with less risk."

BRIAN "DOC" DOUGHERTY, HALL OF FAME GOALIE
